

HDFS performance,tuning, and robustness

5/5 points earned (100%)

Quiz passed!

Back to Week 3

1 / 1
points

1.

Name the configuration file which holds HDFS tuning parameters

1 / 1
points

2.

Name the parameter that controls the replication factor in HDFS

1 / 1
points

3.

Check answers that apply when replication is lowered

1 / 1
points

4.

Check answers that apply when NameNode fails to receive heartbeat from a DataNode

1 / 1
points

5.

How is data corruption mitigated in HDFS
